

TABLE OF CONTENTS

1. INTRODUCTION...1

PRELIMINARY INFORMATION...3

ORGANIZING INFORMATION...5

CAPACITY...5

SCHEDULES AND TIMETABLES...12

Operating Schedules...13

Transportation Schedules...14

2. ORGANIZATION...18

GEOGRAPHIC ORGANIZATION...20

ASSET ORGANIZATION...23

KNOW THE ROAD...25

3. TRAFFIC...30

PREDICTING TRAFFIC...30

CONSOLIDATING TRAINS...41

HANDLING OVERFLOW TRAFFIC...42

DEADHEADING LOCOMOTIVES...43

Day of the Week Imbalance...43

Tonnage Imbalance...45

MAINTENANCE OF WAY - THE OTHER TRAFFIC...46

PLANNING AS A SYSTEM PROCEDURE...47

4. SCHEDULES...49

SCHEDULED RAILROAD?...49

YES, SCHEDULED RAILROAD...50

How far Should the Plan Reach?...54

The Record is the Plan is the Record...54

Developing a Schedule...59

TRANSPORTATION SCHEDULES...61

PRIORITY OPERATION...62

TIMETABLE SCHEDULES...62

RECOVERY AND BUFFER...63

CONTINGENCY...64

PUBLISH...66

5. COMMUNICATION...67

TELEPHONE...67

CONFERENCE CALLS...68

INDIVIDUAL INFORMATION IN WRITING...68

COLLECTIVE INFORMATION IN WRITING...72

TECHNOLOGY OVERCOMES EFFICIENCY...72

NEWER TECHNOLOGY TO RESTORE EFFICIENCY...75

6. CREWS...76

POOL CREWS...76

BUILD-A-CREW...81

EXTRA BOARD...82

HOURS OF SERVICE RELIEF...83

THE BATTLE OF THE BUDGET...86

HELD AWAY FROM HOME TERMINAL...86

LINEUPS...87

POOL MANAGEMENT INFORMATION...89

NO RUNAROUND POOLS...95

ASSIGNED CREWS...96

DOUBLE ENDED POOLS...100

*TRAIN AND ENGINE CREWS WITH DIFFERENT HOME
TERMINALS...101*

DEADHEADING...101

CROSS DEADHEADING...104

UNUSUAL SITUATIONS AND UNUSUAL SOLUTIONS...107

7. EQUIPMENT...109

LOCOMOTIVES...109

Design...109

Assigned...109

Regulatory...110

ASSIGNING LOCOMOTIVES TO TRAINS...112

Characteristics and Type of Service...112

Horsepower, Tractive Effort, and Adhesion...115

Fuel Consumption...118

Equipment...120

Condition...120

Destination...121

Availability...122

Location...123

TELEMETRY DEVICES...124

FREIGHT CARS...125

8. THE ROAD...127

CAPACITY AND CONGESTION...127

Matching Traffic to Capacity...127

Infrastructure Limitation...128

Equipment Limitation...129

BAD ORDER CARS...133

EXCESS TONNAGE OR LENGTH...134

Excess Length...135

Excess Tonnage...136

SPEED RESTRICTED CARS...143

EXCESS DIMENSION CARS...143

Virtually Unrestricted...143

Restrictions Affecting the Train Handling...144

Restrictions Affecting Other Trains...144

Documenting Excess Dimension Cars...145

CAR PLACEMENT IN TRAINS...146

Unusual Station Work...147

9. TERMINALS...150

CAPACITY...151

FLOW CONTROL...153

CONSOLIDATING TRAINS...154

EXTRA SERVICE...158

SETTING CALLS...160

MELTDOWN...161

Finding a solution - general...162

Finding a solution - case studies...165

10. MAINTENANCE OF WAY...175

MAINTENANCE OF WAY WINDOWS...175

MAINTENANCE OF WAY UNDER TRAFFIC...178

DAILY MAINTENANCE OF WAY WORK...180

TRACK AND SIGNAL FAILURES...181

11. DETOURS...182

PRELIMINARY PLANNING...182

DETOURS FOR CONGESTION RELIEF...183

DETOURS WITHOUT THINKING...183

DEVELOPING A DETOUR PLAN...184

12. PASSENGER TRAINS...185

GENERAL...185

LONG DISTANCE TRAINS...185

COMMUTER TRAINS ...188

EMERGENCY SITUATIONS ON PASSENGER TRAINS...190

13. WEATHER...191

RAILROADS, WEATHER, AND HIGHWAYS...192

SNOW...195

EXTREME COLD...198

FLOODING...199

HIGH WIND...199

OTHER CONDITIONS...201

14. EMERGENCIES...202

INITIAL RESPONSE PROCEDURE...202

CALL LISTS...206

What Agencies and Personnel Should be Listed?...206

*TRANSLATING RAILROADSPEAK INTO PUBLICSPEAK...209**THE TABLES ARE TURNED...210**OTHER...212***15. SERVICE INTERRUPTION...213***SHUTDOWN STRATEGY...213**DURING THE SHUTDOWN...214**STARTUP STRATEGY...216**HOLIDAYS...217***16. TRAIN DYNAMICS...221***TRACTIVE EFFORT VS HORSEPOWER...221*

Tractive Effort is the amount of Pull....222

HP is the Tractive Effort (pull) times the Speed....223

Horsepower Alone....224

Varying Adhesion....225

An Actual Experience with High HP locomotives and Adhesion....226

Horsepower is Speed....226

Steeper Grades....227

Slugs, and SDs....227

Helpers....228

Some things left out....229

The Weight of the Locomotive....229

Heavy Haul vs High Speed....230

Those Superpower units....233

The Efficiency of the Locomotive....235

The Rolling Resistance of the Train....235

Curve Resistance...236

Acceleration....237

AMPERAGE TO TRACTIVE EFFORT TABLE FOR AN SD40-2...240

My Tractive Effort vs EMD's...242

Dynamic Braking Force vs Locomotive Speed...243

HOW MUCH FORCE CAN A COUPLER WITHSTAND?...245

From the Book...245

Actual Practice...245

It Always Breaks Ten Cars Back...246

WHAT IS A TOUGH RR GRADE?...247

A 1% grade can stall a train...248

A 1% grade can Break Couplers...248

What about steeper grades?...248

Going Down...249

DEFINITIONS...249

17. RUN THE RAILROAD, DON'T LET IT RUN YOU...251

18. ADDITIONAL INFORMATION...253
